## Production / Machine Operator

Premier Stockfeeds is a successful pet food manufacturer located in the Hawkesbury area, North West of Sydney. As a passionate Australian (family owned) company, Premier supplies a number of brands of dry petfood and stockfeed throughout the Australian retail market and is focused upon sustainable growth into the future.

Due to this growth, a new position of Production / Machine Operator has been developed. This position must be able to function within the following key requirement areas;

### Key Requirements

- Experience to operate manufacturing equipment, particularly in the stockfeed industry.
- Ability to work shift work
- Well organised with strong communication
- Ability to function within a team environment
- Own transport

Extensive on the job training will be supplied. If you believe that this opportunity suits your skills, experience and career goals we look forward to receiving your application. Please note that only candidates that are placed on a short list for the role will be contacted.
